3) Read the following passage then answer the questions below:

Mental and physical health professionals may consider referring clients and patients to a music therapist for a number of reasons. It seems a particularly good choice for the social worker who is coordinating a client's case. Music therapists use music to establish a relationship with the patient and to improve the patient's health, using highly structured musical interactions. Patient and therapists may sing, play instruments, dance, compose, or simply listen to music.

The course of training for music therapists is comprehensive. In addition to formal musical and therapy training, music therapists are taught to discern what kinds of interventions will be most beneficial for each individual patient. Because each patient is different and has different goals, the music therapist must be able to understand the patient's situation and choose the music and activities that will do the most toward helping the patient achieve his or her goals. The referring social worker can help this process by clearly communicating each client's history.

Although patients may develop their musical skills, that is not the main goal of music therapy. Any client who needs particular work on communication or on academic, emotional, and social skills, and who is not responding to traditional therapy, is an excellent candidate for music therapy.

Writing

17) - Write an Essay of about 150 words on the following topic:

Travelling is a way to learn and experience new cultures, traditions and meet new people at the same time. There are different types of tourism: recreational, cultural, adventure, and religious.

Choose one and write about it in detail.

I am a person who likes to travel. I think traveling is a great opportunity to meet new people, gain more knowledge and experience, learn new customs and traditions. I did not travel a lot yet, but I am sure I will have a chance to do it. So, if I had the opportunity to visit a foreign country I would visit Egypt. I think it is a great and very interesting country with marvellous history. In the following paragraphs I will give some reasons to support my choice.

First of all, I always dreamed to visit Egypt pyramids. My aunt visited Egypt a few years ago. She was very excited after that trip and said that she would return there one more time at any cost. She said that Egypt had impressed her very much with its glorious pyramids and ancient buildings. Second of all, I think that in that country one can touch history, feel the hard breath of workers building a pyramid under the parching sun, see the chain of camels walking in the desert with the huge trunks full of presents for Cleopatra on their humps. Finally, I want to see a real dessert and ride the camel. All my friends who rode the camel say that it is an unforgettable experience.

I believe that I will have a chance to visit this beautiful country someday. Unfortunately, now I have plenty of plans and things to do, so, I am afraid that I will not be able to travel for the next two years. I want to finish my education and then find a job, and these things have higher priority than traveling. My husband wants to visit this country too and we made an agreement to make our trip to Egypt on our five years anniversary which is in two years.

In conclusion, I want to add that after my trip to Egypt I will definitely visit Australia. This country is the second one on my list the most wanted to see.
