**SB - LESSON 2 - P. 15**3- Listen and check your answers to Exercise 2 .4- Listen again and complete the table with the missing examples.

How much do you know about pyramids ? Let's compare two pyramids in Egypt . The Great Pyramid of Giza is 146 metres tall . It's **taller** than the Red Pyramid , which is 105 metres tall . But the Red Pyramid is **further** away from the centre of Cairo , so it's **less** crowded with visitors . Because it's **less** crowded , it's also quieter .

Now let's compare two very tall buildings . The Shanghai Tower in China is 632 metres tall . The tower first opened in 2015 . The Al Hamra Tower in Kuwait is 412.6 metres tall . The building first opened in 2011 . So , the Shanghai Tower is taller and **more** modern than the Al Hamra Tower in Kuwait .

Finally , we're going to compare two capital cities . Bangkok became the capital of Thailand about 600 years ago , so it's much older than Brasilia . Brasilia is a modern city . The Brazilians built it in 1960 . More people live in Bangkok than Brasilia . The population of Bangkok is more than 10 million . The population of Brasilia is about four and half million .

So , how did you do ? Did you get the answers correct ?

**\* We can use another way in (Ex 4) if we don't have time :**
