3. Read the following, then answer the questions:

Long after the discovery of electricity, man found out that he could use the great power of water to produce electricity. At first, man used waterfalls from high mountains. Later, he began to build dams across rivers to form a lake behind. The water is then allowed to fall under control through huge pipes to run turbines; machines which help to produce electricity. This runs into wires and is treated before **it** is used in homes and factories. Dams have also been built along rivers in the world to make full use of the water, so it runs to the driest and least **fertile** lands to prepare them for farming. Now man uses the sun to produce electricity. Scientists never stop inventing new ways to produce energy which don't pollute the environment. Nowadays, the environment has become the main interest of both the people and the environment to live healthy.

1. **Why is Egypt a good place to visit.**

Tourists visit Egypt from all over the world to enjoy our ancient monuments and to enjoy our fine weather. Tourists can visit the Egyptian Museum in Cairo and see its treasures. They can go to the citadel and Cairo Tower. They also go to Giza to see the pyramids and the sphinx. They go to Aswan to see the High Dam and they visit Luxor to enjoy its wonderful historic places such as the valley of the kings. Egypt also enjoys the most fantastic resorts in Alexandria and in Sharm El-Shiekh so tourists visit them regularly.

2. **A sport you like**

There are many kinds of sports. The most popular sports are football, basketball, volleyball, tennis, skiing, swimming and cycling. Sports have great value in our life. They are very important for keeping us healthy. People who are used to practising sports usually enjoy good health. They are always active and do their jobs well. Sports are a good way of spending our spare time. Sports help us gain good qualities such as patience, cooperation and how to face difficult problems and situations. Sports teach us good manners and develop our character.

3. **A visit to Hurghada**

Hurghada is where the desert meets the sea. Once it was a tiny fishing village. Now Hurghada is the most popular resort in Egypt. Windsurfing, sailing, fishing, swimming, snorkeling and scuba-diving are the most exciting sports to do in Hurghada. You can stay at a youth hostel. It is very modern and comfortable, but much cheaper than the hotels. You should go to the bazaar in the old part of the city. There are lots of crafts and souvenirs to buy there.

4. Reading as a useful hobby

Reading is a useful hobby which enriches readers' ideas and minds. Clever students are those who try to read more in their spare time instead of wasting their time watching TV or using the internet uselessly. A good book is a good friend, reading helps students find new ideas for their study and lives. Reading gives the reader an idea about his world and provides him with useful culture. Reading makes people travel to different places while they are at home. It also helps them widen their minds and supplies them with a lot of knowledge.

5. A summary of Black Beauty / a story you like / A review of a book:

I read a review about a story I like most. It is about "Black Beauty ". It is a special horse. Black Beauty tells his life story. His mother taught him to be a good horse. Farmer Grey, his owner, was kind and Black Beauty was happy. Farmer Grey sold him to Squire Gordon who was very kind also. Unfortunately, Squire Gordon moved abroad and Black Beauty was sold to different people, Some of them were unkind. To conclude, Black Beauty had many adventures before he finally found a good home again.

6. How you celebrate Sham El-nessim / a special day you celebrate.

In Egypt, Sham el-Nessim was first held to celebrate the start of spring nearly 4,000 years ago. Sham el-Nessim means smelling the breeze and it is celebrated all over Egypt On a Monday in April. Traditionally, boiled eggs are eaten for breakfast. Eggs are decorated in bright colours by children. They usually paint the eggs in the morning and leave them in the sun to dry. Another traditional food which is eaten on this day is feseekh. This tradition also dates back to ancient Egyptian times. When people had more fresh fish than they could eat, they put salt on it to preserve it. In fact, it is a good day for families to spend along the Nile and children play.

7. An e-mail about Mother's day

To: sam@yahoo.com

from: yousif@yahoo.com

About: Mother's Day

Dear Sam,

I'm happy to write this e-mail to you. How are you? In fact, we celebrate one of the most important occasions in Egypt. It's the Mother's Day. It's usually celebrated on 21st march every year. On this special day, children buy presents for their mothers to express their thanks, kindness and love. These presents are usually pieces of jewelry, flowers or clothes. This day also marks the beginning of spring in Egypt. It's a nice idea to celebrate mothers and the birth of flowers at the same time. Please, tell me about special days in your country.

Best wishes
yours (Yousif)

8. STEM Schools

Today, knowing how to use modern technology is essential because people use it every day in schools, at home and at work. People with different jobs need to understand how to use the latest technology. STEM schools are special schools which focus on developing students' ability in science, technology, engineering and maths. STEM schools lessons are different to those in usual schools. Teachers encourage students to do projects where they work together to solve problems. STEM school students must be hardworking. All their lessons are in English, so that they can understand and use scientific texts from around the world while they study.

9. An important invention / the computer

The computer has a lot of advantages. It can store a lot of information; it can do a lot of calculations in no time. it can pay wages, reserve seats on planes, design buildings, compose music and do many jobs. Doctors also use the computer widely in their job. But, it has also some disadvantages, it can waste our time if it is used foolishly or if it is used just for fun. it has also a bad effect on our health specially the sight. It also teaches the children violence through playing computer games. So it is a double-edged weapon.

10. An achievement of inventor you know / a genius.

Mahmoud Wael is an Egyptian genius child. When he was three, he was able to give all answers to the sums. TV channels heard about his amazing skills. They invited him to be on their shows. When he was seven, the American University in Egypt helped him to study maths at a high level. one of the biggest computer software business in the world became interested in Mahmoud because he was so intelligent. He studied computer programming and got several awards. He was then able to teach university graduates about computer programming. He was only eleven!

11. Kinds of robots

Scientists have used robots for a long time. Some robots dive under water to study the sea.

Others are sent inside volcanoes to study dangerous places. Personal robots are designed to help people with jobs at home. They include robot vacuum cleaners to clean floors and lawn mowers to cut the grass in parks and gardens. Some robots are designed to have friendly faces so that children will think they are toys. These robots are very useful in hospitals where they can entertain children and help them to feel better.

12. The good and bad sides of using technology

Modern technology has changed life into modern and easy one. Although new inventions provided people with everything at a twinkle of an eye, they have made people lazy. Spending long hours in front of smartphones, computers or TVs is very tiring. Some children waste much time playing games, others do not do their homework. They might find sleeping at night difficult. Children must practise sports rather than waste too many hours on games and internet. They must relax and finish their homework first. So technology is a mixed blessing.
