Translate into Arabic:

- 1) We can not solve all our problems, but we find solutions to some of them. As man finds solutions, he's the one to create problems and overcome them. Man makes his fears and then screams of them.
- 2) Men fear death as children fear to go in the dark. As that natural fear in children is increased with tales, so is the other. That's why man has always been afraid of the unknown.
- 3) The ministry of Agriculture in collaboration with the UN Food and Agriculture Organization (FAO), is to hold a seminar on the Egyptian forestry policy in Alexandria on June 21 .
- 4) The people's Assembly will today debate the draft law on teachers' salaries . The PA education committee recommends that all employees involved in education should be eligible for pay rises .
- 5) Environmental problems originate from the relation between man and his natural surrounding. Pollution ,for instance ,is an environmental problem.This problem arises from unwise use of natural resources.
- Illiteracy and poverty are two faces of the same coin. We should spare no effort to eradicate illiteracy. In addition, production should be increased to raise the standard of living.
- 6) Egypt is stepping giant steps towards modernization. A lot of criteria and measures have been adopted to help Egypt cope with the current progressive competition. This should be taken into consideration, particularly in our educational system to promote such a new spirit.
- 7) Animals have ways of exchanging information. Bees dance and tell other bees where to find food. Elephants make sounds that humans can't hear. Whales sing songs. Monkeys use their faces to show anger and love. But this is nothing compared to what people can do.
- 8) Thanksgiving is a favourite holiday of many American families. It is , actually, a nationwide legal holiday that provides almost everyone with a long weekend off the job. The four-day holiday is just long enough to allow families to get together for a long visit.
- 9) It was not long ago that smoking by adults was not viewed as dangerous. Its long-term effects were not visible and had not been conclusively demonstrated. Then, in 1969 the Surgeon General of the United States announced that smoking had been proven by scientific research to be harmful to health.

10) Criticism is a vital component of human communication. Without it, we would miss opportunities for self - improvement. Good criticism is necessary", says Angela Sanders, a psychologist. "It gives us the opportunity to prove ourselves and solve our problems and it inspires us to improve as well".

11) With the advent of the twenty-first century, the world has become so much automated. Space as well as the internet has changed our lives to the better. The world has become interlinked like a chain, one link is connected to the other through the speedy means of communication.

12) We are on the threshold of a new era of a comprehensive renaissance that denounces war and seeks peace.

13) How significant is your life? do you make a difference? everything matters . when one leads a life of a permanent purpose; team chemistry thrives and life decisions become wiser and more curious . as a parent, a spouse or a friend when we understand that every action matters every result of our actions improves . There are generations yet unborn whose very lives will be shifted and shaped by moves you make and the actions you take today and tomorrow .

14) You have been created as one of a kind .There has never been one like you and there never will be a gain. You spirits ; thoughts and feelings; you ability to reason and act exist in no one else .You have been created in order that you make a difference. Your life and what you do today matters forever .

15) Samira Musa was an Egyptian nuclear scientist who held a doctorate in atomic radiation and worked to make the medical use of nuclear technology affordable to all. She was born in 1917. She graduated from the Faculty of Science. She turned down several offers that required her to live in the United States and to be granted the American citizenship saying "Egypt, my dear homeland, is waiting for me.

16) Stethoscope is a very beneficial device doctors use to assay the humane body interior.It was innovated by a french doctor shy of touching bodies to perform its function. What makes you sure it's important is that mechanics use it to make the same thing but for cars!

17) It's good to have your disinterested opinion of my affairs

18) The TV set has been the marvel in the last hundred years

19) Basma stopped by with a cake while I was doing the dishes

20) The race to produce nuclear energy and weapons has reached a feverish stage. That has already put the world on the verge of perishing. So, there should be wise voices to stop this crazy competition and make those countries return to their senses.
