#### 4. Read the following, then answer the questions:

We all need water to drink, to grow food, to wash and to use in our homes. But there is a problem. In many places, there isn't any rain for many months, on the other hand, in some countries, some people use a lot of water when they brush their teeth. They don't turn off the tap while washing their hands. We can save a lot of water if we remember that a long shower uses a lot of water, but a short shower uses only a little water, so people should be careful to turn off the taps and repair the taps that often drip.
